

## What we can offer...

- Worldwide abnormal freight movements project managed jointly by our Lichfield sea freight department and our sea freight partner in Antwerp.
- European and UK deliveries on flat beds, extendable trailers, low / semi-low loaders and modular trailers up to 350 tonnes.

## Case Study: MITIE Infrastructure, Plymouth

**Project description:** The transportation of a 75 tonne, 13.5m x 4m x 4m industrial boiler from Lincoln, Nebraska to a waste wood bio-mass plant in Plymouth. Other smaller out of gauge ancillary items to be delivered on the same day as the boiler.

**Project duration**: 10 months from September 2011 to June 2012. After numerous meetings with road and sea freight suppliers in the U.S & UK and our customer in Plymouth, we collected the boiler from site in Nebraska in mid May and delivered to site in Plymouth a month later. On site project management in U.S, Belgium and U.K.

Project result: On time, on budget, no damages.

If you like the sound of what we do and why we do it...
